**Cupcakes could cost you \$2,000**

Pets' medical emergencies never happen when you expect them. They happen when your dog grabs a chocolate cupcake. Or when your cat nibbles on a houseplant.

With today's advanced veterinary care, more sophisticated treatments are available for pets. That's great news—though it comes at a cost.

When you protect your pet with ASPCA Pet Health Insurance, you can focus more on your pet's health and less on the cost. Our affordable plan options are designed to give you the coverage you need when it counts.

Our pets are part of our families, and you're making a smart decision to protect them like family. That's why so many pet parents today are making the same choice to insure their pets' health.
